

My Morning Routine Picture Cards

Instructions: Print out! Cut each picture out! Keep in a place that you visit daily with your child (on the refrigerator or in child's bedroom). Use pictures to have your child place every morning which task comes first, second, third, and so forth on schedule chart (print out), while also having your child completing that task before moving on to the next. This keeps them "on track" and lets them take responsibility for their daily routines and tasks. Pictures help with building early language skills in making connections with actual daily routines. Can laminate or cut out and attach to large index cards for durability and to last longer. Keep pictures in recipe box or Ziploc next to the schedule chart.
