**PROBLEM:** Aa in the alphabet is in the wrong spot. Can you find Aa and point to it? While pointing to the chart above, ask, "is it before or after Bb and Cc?"

**GUESS:** Can you guess where Aa is in the real alphabet? Is it before or after Bb and Cc? Show them the real ABC Chart under "April Printables"

**SOLUTION:** Can you put Aa in the right spot? Show them the real ABC Chart where Aa is located. Have them tell you where Aa belongs on the chart above. Before Bb and Cc, it is the **FIRST** letter of the alphabet. On a

blank sheet of paper, re-write for them, or for older children have them re-write the letters, to show you the correct way the alphabet is written.

**CONCLUSION:** Sing the alphabet together with your child. Emphasize Aa at the beginning saying it loud, to help their awareness of it being the "first" letter of the alphabet.
