

## Season's Sorting Cards

Cut each of the cards out individually. Mix together. Have your child sort them into 4 categories: Spring, Summer, Fall, and Winter. Talk about why they sorted them how they did and what features distinguish between the four seasons. Such as; the sun and pool in the summer because it is hot; the leaves turn red and yellow in the fall; there is ice on the ground during the winter; flowers grow in the spring and it is windy to ride in hot air balloons.
