

Stop Sign Colored-Patterns

Cut these colored boxes out individually. Help your child make stop-light patterns with them on the floor or table. Remember when teaching and doing: A stop light can either go “red, yellow, green” or “green, yellow, red”. Teach what a pattern is: “Something that continues over and over again the exact same way as it started.” Make as many patterns as you and your child can think of. Continue until your child no longer shows interest.
