

Turkey Counting

Cut each of these turkey's out and practice counting with your child. For infants focus on counting only #1-5. Toddlers #1-10. Preschoolers and up #1-20.

Other ways to use these turkey cutouts:

You can also color them and use for color sorting, patterning, and matching same colors.

You can color all of them in one group of 4 the same, but make a difference on one of them and see if your child can tell you which turkey out of the group of four has something different about it.
