

# Fall Into Fall Storybook

The leaves change colors to red,  
yellow, orange, and brown.

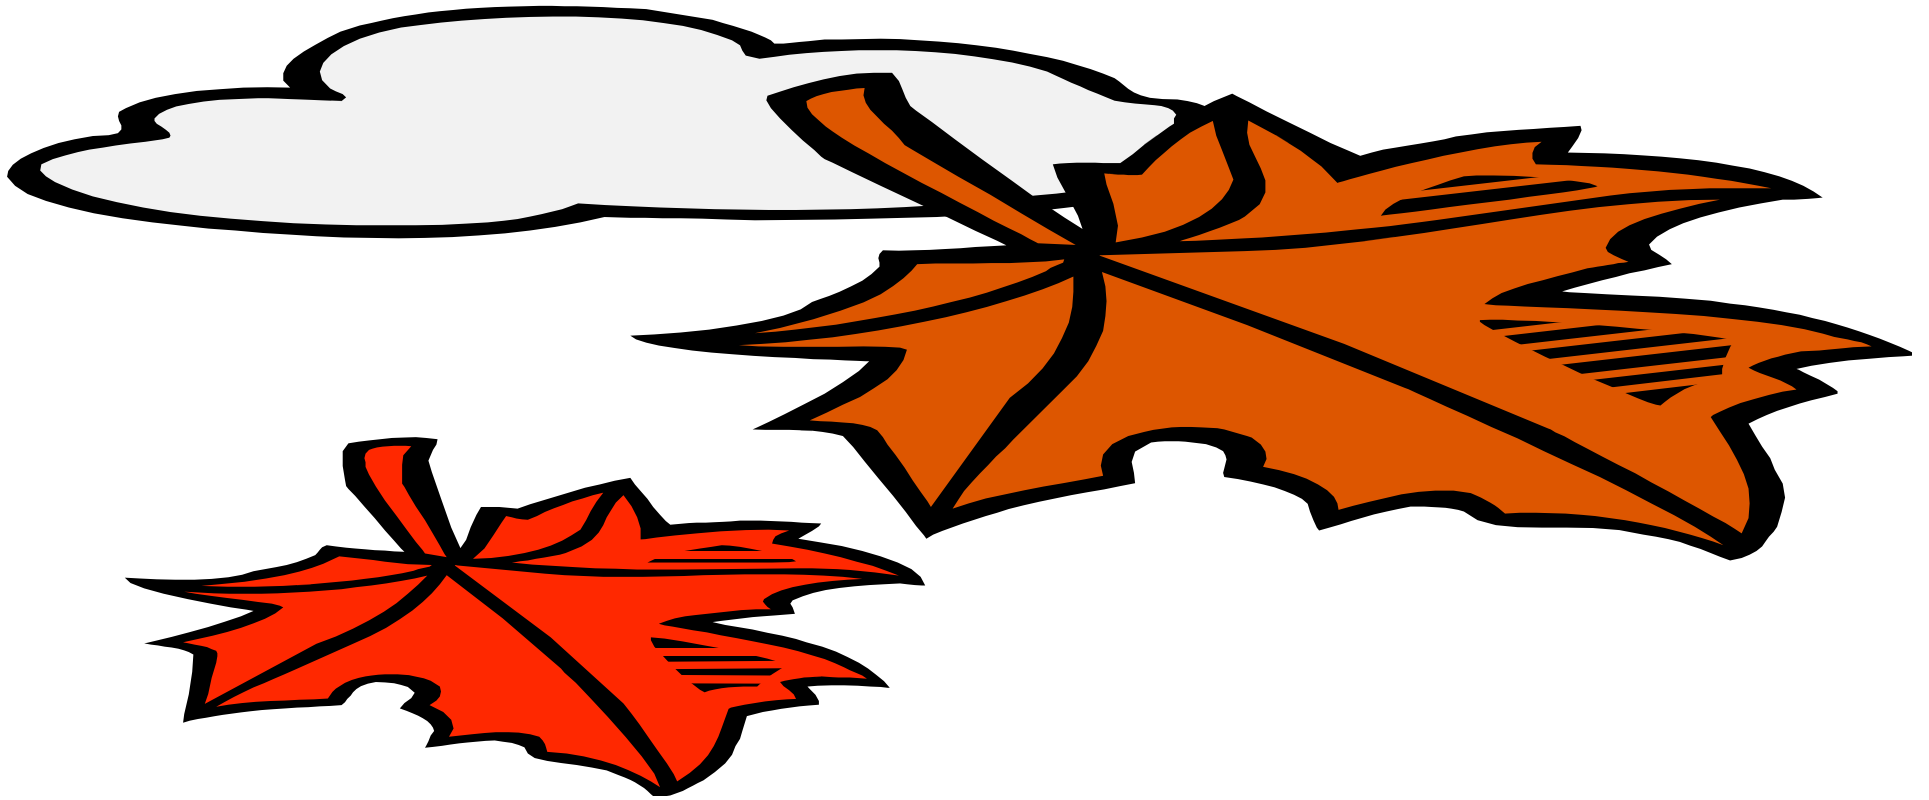

The trees change colors too.

The trees begin losing their  
leaves.

The leaves fall down to the  
ground.

In the fall there are pumpkins.

In the fall there are apples.

In the fall there are scarecrows.  
They help farmers scare the birds  
away from eating all of the crops.

In the fall farmers grow  
vegetables for us to eat.

The fall is a great time of year!
