

Reindeer Antlers

Cut the antlers out individually. Have your child put the antlers on the reindeers head, counting them as they do so, from #1-10. For toddlers, focus on only #1-5.

You can also use the antlers to teach your child to follow verbal directions. Telling child to only put a specific amount on the reindeer when told. Such as telling your child: "Can you put two antlers on the reindeer? Now can you add one more?" Have your child color the reindeer brown and the antlers black when you are done teaching.
