

Pull it out of the bag

Ages 1 year to 2 years

Objective: The child is introduced to the alphabet after playing a hide-n-seek game finding letters.

Materials needed:

Brown paper bag

Small white index cards (25)

Black Marker

Procedures:

1. Before hand, write the alphabet A-Z, so that each letter is written on 1 white index card of its own. All capitol or both is fine. Place in bag.
2. You will have to model first showing your child what to do before they will be able to do it themselves.
3. Grab in the bag and pull out a letter. Show your child that letter and say it out loud.
4. Keep doing it until they show interest to try and "pull a letter out" themselves.
5. Once they do, say the letter to them and ask them to try and repeat what it is to you.

Say: "Can you say A?"

Pull it out of the bag

Ages 1 year to 2 years

6. Continue until all letters have been pulled out or your child does not show interest any longer.

Milestones to meet:

The child is introduced to letters. The child uses fine-motor skills to grab objects. The child builds their sense of object permanence. The child shows a willingness to try and repeat letter names after heard and seen.

Evaluation:

Did this lesson work for your child? Why or why not?
