

Spin the Community Wheel

4 years to 5 years

Objective: The child will develop and use social and self-help skills after spinning a wheel with

community helper ideas and complete the tasks landed on.

Materials needed:

Community Wheel (print from resources page)

Pencil or spoon as a "spinner"

Procedures:

1. On the board, lay the "spinner" down.
2. Have your child spin and tell them whatever they land on is the community helper task they have to complete this week, or for the day.
3. Have child spin. (Tip: The spinner "heads" on a pencil would be the led end; or for a spoon would be the spoons end)
4. Read to child what they land on.
5. Have, or help them, do the task.
6. Continue again for more fun, more volunteering.

Spin the Community Wheel

4 years to 5 years

7. Have your child spin until each "task" spot has been landed on and completed, if desired.

Milestones to meet:

The child can use social skills to complete a task in their community. The child uses self-help skills to do things that require helping others. The child can spin an object. The child follow directions.

Evaluation:

Did this lesson work for your child? Why or why not?
