

# Manners

## Ages 4 years—5 years

**Objective:** The child can use words to associate proper manners and life skills.

### Materials needed:

Manners question-task cards (on the next page)  
"I Have Manners" eStorybook

### Procedures:

1. Sit with your child and read the manner's eStorybook together. See if they can read it on their own, look at pictures to figure out words!
2. Take the manners question-task cards and say them one at a time to your child. Have them try to answer and then tell them the correct answer (manner).
3. Continue until all manners question-task cards have been gone through.
4. You can even practice "using our manners"

## "Manners" Question-Task Cards

You read these out loud and have your child say answers with you

by setting up your child in a situation where they have to use manners. Take them to a grocery store and make them ask "please" for items on the shelf they want. Or, when given a treat have them practice saying "thank you." Take them to the public library to read books and remind them of our manners, being quiet in the library (saying "shhh") to respect others reading. Take them to a department store and have them be a "door holder" for people walking in and out. Proper manners, letting others go before you.

### **Milestones to meet:**

The child builds early language capacity by learning familiar life skills and proper manners.

### **Evaluation:**

Did this lesson work for your child? Why or why not?
