

Let's Bake

Ages 4 to 5 years

Objective: The child uses early math skills to prepare and make a snack dish.

Materials needed:

Recipe Cards (printable)

Procedures:

This activity needs adult assistance at all times!

1. In the kitchen, put an apron on your child or something they can get a little messy in if need be.
2. Show them the recipe cards. Have them choose which one they want to bake for the day.
3. Following the step-by-step picture directions, have them get out all of the ingredients necessary and place on kitchen counter.
4. Have them follow the recipe directions to make the snack item. Make sure they read the proper amounts of each item needed. Help as needed.

Let's Bake

Ages 4 to 5 years

5. Bake the snack for the time said on the recipe card. *You place it in the oven alone and take out alone for safety reasons*
6. When the snack is done baking, LET COOL COMPLETELY!
7. Use math skills such as: counting how many of each there are, cutting them in half's or quarters, dividing equally among the amount of people whom are going to eat them.
8. EAT and ENJOY for snack time!

Milestones to meet:

The child can follow a set of picture directions. The child can count, divide into parts, and split up equal amounts of an item.

Evaluation:

Did this lesson work for your child? Why or why not?
