

Marshmallows and Sticks

Ages 4 to 5 years

Objective: The child is able to create structures using different objects.

Materials needed:

Popsicle sticks (skinny and small)
Large Marshmallows

Procedures:

1. On a table or surface that is easily cleanable, lay out the popsicle sticks and marshmallows on a large tray or plate.
2. Let your child build with these. You may need to model first by sticking the sticks in the ends of the marshmallows and creating some sort of structure.
3. Let them build and create on their own. See what they come up with!
4. Be sure to talk about what they built and discussing why they choose to build it.

Marshmallows and Sticks

Ages 4 to 5 years

Milestones to meet:

The child is able to use fine-motor skills to build structures with objects.

Evaluation:

Did this lesson work for your child? Why or why not?
