

Counting & Coloring Cereal

Ages 2 years—3 years

Objective: The child shows willingness to count, sort, & recognize colors; building early math skills.

Materials needed:

Fruit Loops Cereal

Procedures:

1. Before hand, sit with your child at a small table.
2. Put a handful of Fruit Loops Cereal on the table.
3. Have child help you sort the different colors out into their own groups. Such as all of the blue cereals go together and all of the red cereals go together.
4. As you are sorting the cereal pieces into colored groups, ask that colors name to your child.
5. Once the handful of cereal pieces have been color-sorted, count how many groups you have with your child. Point while counting. Encourage child to count with you.
6. Now count the amount of each color cereals you have. Such as counting all of the red cereals in
