

Story time

4 years to 5 years

Objective: The child builds early language skills after hearing a story, can say words of things they see and recognize in a story, and attempts to read a story on their own.

Materials needed:

Story book "I love to learn" (print from resources page)

Procedures:

1. Print out the book and staple together. (you can also do this activity straight from the screen at your computer instead of printing)
2. Sit in a quiet, comfy area with your child.
3. Begin by doing a "picture walk" through the story with your child. Point to each picture and ask your child to tell you what it is or what is happening in the picture.
4. The second time, read through the story. Remember to point to each word as you are reading to build child's print awareness.

Story time

4 years to 5 years

4. Now read through it a third time, ask your child to "read it to you."

Milestones to meet:

The child builds early language development through story telling. The child can say the words of pictures they recognize. The child can read a story on their own.

Evaluation:

Did this lesson work for your child? Why or why not?
