

Summer Window Writing

1 years—2 years

Objective: The child is introduced to words that are associated with summer and uses fine-motor skills to color on a window.

Materials needed:

Large low window (or you can use a mirror)

Window markers/crayons (you can find these at any Wal-Mart, Toys'R'Us, or Target in the craft/art section)

Wet paper towels (for cleaning and wiping)

Procedures:

1. Sit with your child at a low window.
2. Start writing your child's name on the window/mirror. Say and spell each letter to your child as you write it.
3. Wipe it off and do another word.
4. Summer words you can write to say, teach, and show your child may include: Sun, Ball, Water, Pool, Hot, Swim, Beach, Shell

****Make sure as you teach words, say each letter to child as you write it, then have child repeat.**

Summer Window Writing

1 year to 2 years

5. Continue to write words on the window to teach child literacy skills.

6. You can encourage your child to try to scribble on the window or mirror by placing the window marker in their hand, helping them as necessary to make stroke-like movements to scribble color on it. Encourage child to color on their own.

Milestones to meet:

The child can listen to words being spoken and tries to repeat letters and/or words. The infant can build their language capacity of unknown words and print-awareness. The infant builds fine-motor skills and grasping abilities to hold a marker and color with it making strokes.

Evaluation:

Did this lesson work for your child? Why or why not?
