ONLINE CURRICULUM FOR PARENTS TO BE THE TEACHER OF THEIR TODDLERS AND PRESCHOOLERS LAUNCHES

Helping the world to “make time meaningful again” in education, everywhere

eTeachingMe is an online curriculum that is for parents (or anyone alike) to be the teacher of their children, aged 1 to 5 years old. Using a unique curriculum design, our goal is to provide convenient, practical, and organized lesson plans that are age appropriate and engaging in content for anyone to teach their child. We aim to maintain the value behind old-school teaching techniques, which allows for direct interaction between caregiver and child.

Specifically, our services include a full yearly curriculum at four age ranges: 1 to 5 years. All curriculum is accessible on our online web portal in which members pay a one-time fee to become a life-time member to our online learning family. We also provide hundreds of other educational resources, diverse curriculum plans, & tips and tools on our member's web portal.

As our Founder is a professional educator and parent herself, she believes it is extremely important that learning begins at home. Every child has the opportunity to learn something new and different every day with the guidance and time spent with their parent (teacher) using eTeachingMe curriculum online. She created this company on a particular theory: “Sometimes we get lost in all we have to do, and need to remember to focus on what we can do to have fun learning with our kids. Keep things simple.”

If you are looking for an engaging and hands-on curriculum for your CHILD, along with thorough communication from a company that values YOU, look no further. We also provide a FREE APP (search: eteachingme) in any mobile app store to download on your device; where 1 activity a day, keeps learning at play. We love meaningful time.

END
